Subject: Newspaper Publication of Audited Financial Results for the Quarter and Year ended March 31, 2026.

Dear Sir/Madam,

Pursuant to Regulation 30 and Regulation 47 of the SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015, please find enclosed herewith the copies of the newspaper advertisements published today, i.e., **May 30, 2026**, regarding the Audited Financial Results of the Company for the fourth quarter and financial year ended March 31, 2026.

The results were published in the following newspapers:

1. **Indian Express** (English Edition)
2. **Financial Express** (Gujarati Edition)

The said results were reviewed by the Audit Committee and approved by the Board of Directors at their meeting held on 29th May 2026.

This is for your information and records.

Thanking you,

Yours faithfully,

For: VMS TMT LIMITED

'Hold polls outside peak season': Tourism industry writes to Goa CM

Pavneet Singh Chadha
Panaji, May 29

THE TOURISM industry stakeholders in Goa have written to the chief minister requesting that the assembly elections in the coastal state be scheduled ideally at the end of February next year, "outside the peak tourist months", arguing that elections in December would disrupt the "economic lifeline" of tourism and hurt Goa's status as a premier global destination.

In a letter to CM Pramod Sawant, the Travel and Tourism Association of Goa (TTAG) said the scheduling of elections during peak tourist season is a matter of grave concern, and the grapevine suggests they will be held in December. The assembly polls in Goa are expected to be held early 2026.

Jack Sukhija, president, TTAG said: "... As you are aware, December represents the zenith of Goa's tourism calendar."

The association said it is advocating "for the postponement or rescheduling of the election dates..."

India a trusted partner, only 1% of trade deal talks left: Gor

Shubhajit Roy
New Delhi, May 29

US Ambassador to India Sergio Gor addresses the US-India Trust Initiative event at IIT Delhi, Friday. PTI

SEGIO GOR, US Ambassador to India, said Friday that Washington expects that a bilateral trade deal with India will be signed in the "next few weeks and months". He indicated that only "1 per cent" of the deal was left to be concluded and Indian and US negotiators were working on it.

Describing Secretary of State Marco Rubio's recent four-day visit to India as "substantive", Gor, speaking at the US-India TRUST Initiative event at IIT Delhi, said, "Just last week, India had sent a team to Washington DC to finalise the last 1 per cent of that trade deal. Next week we will welcome a US delegation here to continue those talks."

"We fully expect that the trade deal will be signed over the next few weeks and months," he said.

Randhir Jaiswal, spokesperson for the Ministry of External Affairs, made similar remarks Friday. "We had a trade team which visited the US in April... and now we are expecting a team from US to visit India next week, where negotiations will be taken forward. So far, we have had a positive and constructive engagement," Jaiswal said.

Earlier, the Commerce Ministry had said that a high-level US trade delegation was scheduled to visit from June 1-4 to iron out the remaining clauses of the proposed bilateral agreement.

Gor said there was limitless potential to take forward the US-India relationship. "The importance of India is now... not only economically but strategically to the world."

The envoy said the TRUST (Transforming the Relationship Utilizing Strategic Technologies) initiative, launched during PM Narendra Modi's visit to Washington earlier this year, was helping deepen cooperation in critical and emerging technologies such as AI, semiconductors, quantum computing, biotechnology, energy and space.

Underlining the exponential trajectory of the economic relationship, Gor noted that bilateral trade in goods and services had skyrocketed from just USD 20 billion to over USD 220 billion in the past two decades. He said the US is focusing on partnerships with countries it considers trusted collaborators in emerging technologies, noting that "India's one of those partners".

He also highlighted India's inclusion in the Pax Silica initiative, a technology and supply-chain network led by the US.

"The reason India was in the first top 10 countries around the world to join this is that we trust this place. We trust the people here, we trust the technology, we trust your government," the Ambassador said. He said India is joining "a network of trusted ecosystems and resilient supply chains" covering technologies such as AI, semiconductors and quantum computing.

On artificial intelligence (AI), he said major American technology companies are increasing investments in India. He also flagged cooperation in space, citing the recent launch of the NASA-ISRO NISAR mission and India's participation in the Axiom-4 mission.

NEET: As SC stresses accountability, govt says PM supervising situation

Express News Service
New Delhi May 29

CBI Special Director Manoj Shashidhar (left) and NTA Director General Abhishek Singh ahead of a parliamentary standing panel meeting held to review the NEET leak probe, in Delhi on Friday. ANI

HEARING PLEAS in connection with the cancellation of NEET-UG 2026 over allegations of paper leak, the Supreme Court on Friday quizzed the National Testing Agency (NTA), which said the matter is being monitored by none other than Prime Minister Narendra Modi himself. The court, however, said that the problem will not end unless accountability is fixed.

"The real problem won't stop till actual accountability is fixed. Not in terms of so and so will be liable, it will be effective when we know which individual shoulders the responsibility. Unless you identify the specific duty bearers, it will be difficult," said Justice P S Narasimha presiding over a two-judge bench.

He said in a situation of the given nature, unless the responsibility is identified, it will only remain a case of the committee holding meeting after meetings.

The bench asked the Centre to file an affidavit indicating how and in which manner the process of conduct and conclusion of the examination, year after year, will be done. It said the affidavit be filed within six weeks and posted the matter for hearing in the second week of July.

The bench also comprising Justice Alok Aradhe said the NTA must learn from bodies like the UPSC on conducting competitive exams.

"We have...created and established world-class institutions. UPSC, for example, with the amount of conduct of the preliminary exams and other things, (has) never been (in) a situation like this. We need to learn...," Justice Narasimha said.

The judge said "the problem with most of our institutions is ad hocism. So much so you will have the best of the officers working and everybody will depend on that. It is a phenomenon everywhere in our country..."

Stating that "we will keep monitoring this for some time", Justice Narasimha said, there is something called "institutional memory. It's not the individual who has the capability; it's the institution which should have the capability. That's what you need to prepare, irrespective of people coming, irrespective of people going... There must be something to evolve over the existing practices."

The bench also interacted with former ISRO chairman K Radhakarishnan, who is the head of the Monitoring Committee set up by the SC in 2024 to recommend measures to strengthen the NEET exams.

"You were also part of the expert committee. A highly empowered committee... How much monitoring has happened about the implementation? Have you been holding regular meetings," Justice Narasimha asked.

Radhakrishnan answered in the affirmative following which the judge asked, "Then how did this failure occur...?"

Justice Narasimha said: "Despite your monitoring on the basis of the high-powered committee's recommendation, if this incident (NEET paper leak) has happened, then there is something wrong with the original recommendation (or) there would not have been effective monitoring. How has it happened?"

Radhakrishnan said the high-level committee of experts had given 60 recommendations for 2025 and 2026 exams, and 35 for the long-term.

He said most of the recommendations had been implemented while a few were in the process of being implemented.

He said in 2025, the NEET-UG was conducted almost satisfactorily but for power failures at some centres.

Radhakrishnan said it had also recommended steps "to strengthen NTA which was really outstretched (itself) to conduct all the tests assigned to it. This has happened recently."

The court asked: "What was that which was not in the contemplation of the HPC that led to this?"

Radhakrishnan said the "Committee contemplated all possible problems. The question was really the question paper preparation".

"There are certain protocols, certain practices to be followed... Many are implemented. A few are yet to be done," he said while assuring the court that "at the moment, these are being taken care of" and "for the re-Neet that is going to be held on June 21, these are going to be taken care of". "Our target is to see the reforms are implemented," he said.

Justice Narasimha said what has happened is "traumatic" for lakhs of students who spent years preparing for NEET. "We should not disappoint our youngsters, it's very traumatising so much investment of emotions and time...It's the most sensitive thing."

Solicitor General Tushar Mehta, appearing for the Centre, said, "We are dealing with youth and the government is seriously concerned about the concerns of the youth."

He said Radhakrishnan "did not very advisedly say certain things because the investigation is on". Also, some new mechanisms have been put in place for the June 21 exams. "Not divulging but it is monitored at the highest possible executive level." Mehta said, adding, "the Hon'ble Prime Minister is personally supervising it". Justice Narasimha pointed to the need to institutionalise the mechanism for receiving suggestions and making recommendations.

6 workers die in under-construction bridge collapse in UP, asst engineer suspended

Manish Sahu
Lucknow, May 29

The site of Hamirpur bridge collapse on Friday. PTI

SIX LABOURERS were crushed to death after a concrete slab from an under-construction bridge over Betwa River in Uttar Pradesh's Hamirpur collapsed early Friday, after a storm that lashed the district. An investigation has been ordered and an assistant engineer suspended, officials said.

Uttar Pradesh Chief Minister Yogi Adityanath took cognisance of the tragedy and ordered compensation of Rs 5 lakh for the next of kin of the deceased, and Rs 50,000 aid for the injured. The incident occurred around 3 am between Parsani and Kandaur villages. The deceased were identified as Lokendra (22), Kuldeep Nishad (19), Sawant Yadav (28) and Sabhajeet (30) from Banda, and Pushpendra Singh Chauhan (34) and Rajesh Pal (42) from Hamirpur, police said.

After rescue operations, police said three men were pulled out alive from under the debris. "During preliminary inquiry, it was found that the victims were working when one of the slabs collapsed on them," said Hamirpur Additional Superintendent of Police Arvind Kumar Verma.

Officials said the IMD and the district administration Thursday evening issued warnings regarding strong winds, storms and rain. Early Friday, as per the MeT department, strong winds reaching 100 kmph, heavy rain and thunderstorms impacted 20 districts, including Lucknow, Varanasi and Prayagraj. The 800-metre-long bridge has been under construction since 2024 and is intended to connect Mora Kandar and Kandaur villages in Kurara block of Hamirpur district. It was being built by a private contractor engaged by the Uttar Pradesh State Bridge Corporation. Mithlesh Kumar, Joint Managing Director (Civil) of the Corporation, said Assistant Engineer Gajendra Chaudhary has been suspended and a departmental inquiry ordered against Deputy Project Manager Dileep Kumar, posted in Hamirpur, over the incident.

He said the department has also constituted a three-member committee to probe the collapse: Officials said roughly 60% of the bridge had been completed at the time of the accident. Following the incident, police officers, firefighters and district administration officials rushed to the site and immediately launched rescue operations . Teams from the SDRF later joined the operation. In a post on X, the CM said instructions were issued to the district administration to swiftly carry out relief and rescue operations in coordination with the SDRF.

7 killed as massive storm hits Kolkata

Sweety Kumari
Kolkata, May 29

HEAVY RAINFALL lashed Kolkata and other parts of West Bengal on Friday, leaving seven persons dead and causing widespread damage. Flight operations were also hit, with several diverted or delayed.

The weather department said a squall passed over Kolkata's Alipore from the north-westerly direction with a maximum speed reaching 88 kmph at 2.45 pm. A squall passed over Dumdum, North 24 Parganas, with a maximum speed of 74 kmph at 2.29 pm. The squalls were accompanied by heavy thunderstorms.

Announcing compensation of Rs 4 lakh each for the families of those who died, Chief Minister Suvendu Adhikari said, "Between this storm and other factors such as electrocution, railway incidents, house collapses, and lightning, seven persons lost their lives. We all know that no monetary compensation can ever replace a lost life."

HC to Google: Pay Rs 30L damages to Hindware for trademark infringement

Sohini Ghosh
New Delhi, May 29

THE DELHI High Court has directed Google LLC to pay damages of Rs 30 lakh in a trademark suit by sanitaryware brand Hindware after the court found that the AdWords programme of Google allowed a tool which leads to infringement.

Justice Mini Pushkarna, in an order dated May 22, observed: "Google cannot be permitted to shrug off responsibility by making available a tool (keyword planner tool) that leads to infringement, and then turning around to claim that the said tool was not mandatory." Google AdWords Programme is a paid referencing and keyword advertising service on their search engine.

The court also held that Google cannot invoke the safe harbour provision as an intermediary, noting: "...it has been admitted by Google that it allows use of trademarks as keywords in order to seek out users interested in the goods or services covered by the registered trademark... Google is an active participant in use of the trademarks of proprietors. The trademarks are monetised by Google by using the same as keywords for displaying the paid advertisements on the SERP (search engine results page)... The Ads Programme of Google encourages the users to use various search terms, including, trademarks as keywords for display of the advertisements to the target audience. Thus, Google cannot seek the benefit of exemption under Section 79 of the IT Act."

Observing that the "conduct of Google" in selling trademarks as keywords takes "unfair advantage" of Hindware's trademark, the court observed that the same is "contrary to honest practices in industrial and commercial matters". The court ruled that Google's actions of "selling or trading off the plaintiff's trademark to the direct rivals or competitors of the plaintiff, without permission, as well as without sharing the profits with the trademark proprietor, is evidently dishonest."

Hindware, in its trademark suit, had alleged that competing brands in sanitaryware space had purchased its registered trademark space to appear as a result when consumers searched for 'Hindware Sanitary', or 'Hindware Sanityware' or 'Hindware Sanitary Ware India'.

From now on, AI will do 85% translation of NEET papers, testing agency tells top court

Vidheesha Kuntamalla
New Delhi, May 29

The expert panel has recommended transition of NEET-UG from pen & paper to computer from next year, with multi-session and multi-stage testing, the NTA told court

DAYS AFTER the CBI found that an arrested NEET-UG 2026 subject expert had not only helped set the leaked May 3 question paper but had also translated portions of it, the National Testing Agency (NTA) told the Supreme Court that in future, it would use "AI-based tools" for "at least 85% of the translation work in order to minimise human intervention...and lower the probability of any security compromise".

In its affidavit filed before the Supreme Court ahead of Friday's hearing on pleas seeking the restructuring or replacement of the NTA, the agency outlined a sweeping overhaul of examination security, administration, and technology going forward, even as it defended its handling of the cancelled NEET-UG 2026.

The proposal on the use of AI in translation — which is one of several steps listed by NTA in the affidavit as part of its "way forward" — is significant because the CBI investigation into the paper leak has found that one of the arrested subject experts, Manisha Gurunath Mandhare, was involved in both setting questions and translating the paper.

Mandhare, a Biology expert from Pune's Modern College of Arts, is learnt to have translated questions in both the Botany and Zoology sections, which gave her access to a wider portion of the paper than previously known. Another arrested expert, retired Chemistry lecturer P V Kulkarni of Dayanand Junior College in Latur, allegedly translated the paper into Marathi. The affidavit also states that the "Randomization & Rotation Policy" is being "further institutionalised for the engagement of paper setters, moderators, vetters, translators, proof-readers, etc", and "background checks/ antecedent verification of such functionaries as well as of the officials involved in high-stakes exams of NTA shall... be rigorously undertaken".

The NTA presented a detailed account of reforms implemented under the supervision of the High-Powered Steering Committee (HPSC) headed by former ISRO chairman K Radhakrishnan. The HPSC was constituted by the Ministry of Education in November 2024 after a High-Level Committee of Experts submitted 101 recommendations on examination reforms. According to the affidavit, the HPSC continues to function and monitor the implementation of those recommendations.

The NTA affidavit submitted that less than three weeks before NEET-UG 2026, the HPSC had reviewed preparations, and suggested an "elaborate set of pre-examination, during-examination and post-examination measures".

Despite a "full security protocol" having been followed for the exam, on May 7 evening, the agency received inputs alleging malpractice, the affidavit said. The examination was subsequently cancelled and the matter referred to the CBI.

The re-exam on June 21 would be held under a "further strengthened SOP framework, with multi-layer authentication, surveillance and inter-agency coordination", the NTA told the court. The affidavit noted that "only NEET(UG) 2026 was conducted in Pen & Paper (PPT) mode", while "all other major NTA examinations are already in Computer Based Test (CBT) mode.

This will change: The expert committee has "specifically recommended transition of NEET(UG) from PPT to CBT mode, along with the introduction of multi-session and multi-stage testing", the NTA informed the court. "The transition will be implemented from the next examination cycle in consultation with the Ministry of Health and Family Welfare", it said.

The NTA told the court that it plans to develop "at least 1,000 Secure Testing Centres in reputed Government institutions", adopt "cloud-based infrastructure / AI-ML / blockchain", and develop "international co-operation and collaboration".

The agency also said that surplus funds available with NTA were being deployed to strengthen examination security through "advanced cybersecurity systems and next-generation firewalls", upgraded IT infrastructure for examination delivery and result processing, AI-enabled CCTV monitoring and mobile jammers.
